

the new FASC  
**Vehicle Specialty Plate**  
is now available

Crawford

Dear Forestry Association Members,

The South Carolina Department of Motor Vehicles has added the Forestry Association of South Carolina Vehicle Specialty Plate to their system. The Forestry Association receives no proceeds from the sale of the FASC specialty plate. We are simply trying to promote the forest industry and our association.

If you are interested in obtaining a Forestry Association Vehicle Plate, please email me at [ccrawford@scforestry.org](mailto:ccrawford@scforestry.org) I will email you the form with further instructions.

The plate does have a \$10 special plate fee which is due in addition to the regular registration fee.

The individual fees are determined by where the current plate is in the registration cycle. Some customers may be required to pay the \$10 specialty fee and a \$12 one year registration fee.

You can call 803-896-5000 and provide the current plate number for your vehicle and the DMV agent can inform you of the fees required to get the specialty plate.

In addition, the Forestry Association specialty plate officially went on sale to the general public by mail, and on the SC DMV website on September 1, 2017. Applications can be submitted to the local DMV office and the plate will be mailed to the customer in 3-5 business days.

We appreciate your support of the Forestry Association of South Carolina.

Sincerely,

Cam Crawford  
President & CEO
