

FOCUS ON FORESTS

SECONDARY EDUCATOR WORKSHOP

Teaching students how to think, not what to think!

Project Learning Tree has a variety of secondary modules designed to help meet the needs of teachers in grades 9-12 (can be adapted for grades 6-8). The secondary modules are designed to meet common components of national and state education reforms by using whole language teaching, cooperative learning, problem solving and authentic assessments.

The "Focus on Forests" module uses forest-related examples to help students better understand the complexity of environmental issues. Students are encouraged to examine issues objectively, collect and analyze data, and become involved in decision-making experiences. Students learn how to present arguments clearly and how citizens can play a role in forest management decisions.

Find more information on this module at <https://www.plt.org/curriculum/focus-on-forests/>.

REGISTRATION

DEADLINE: JUNE 5

Name: _____

School, Comp. or Org: _____

Address: _____

City: _____ State: _____ Zip: _____

E-Mail (required): _____

Phone: _____ Fax: _____

Purchase Order #: _____

If using Purchase Order: Authorization MUST BE ATTACHED. Registration cannot be processed without form. ALL PURCHASE ORDERS WILL BE INVOICED.
