

PROFESSIONAL DEVELOPMENT EVENT FOR EDUCATORS

Project Learning Tree's new flagship curriculum Explore Your Environment: K-8 Activity Guide provides 50 hands-on, multidisciplinary activities to connect children to nature and increase young people's awareness and knowledge about their environment. Activities include detailed step-by-step instructions, academic correlations, time and material requirements, and corresponding student worksheets with green career connections.

This workshop is approved for 4 hours of SCDE renewal credits!

Formal and nonformal educators in urban, rural and suburban settings can easily use the activities with their students. Available in print and online, this supplementary curriculum is designed to develop students' critical thinking and problem-solving skills. Activities are organized by grade band (K-2, 3-5 and 6-8), are correlated to the SC Department of Education standards and align with national standards for science, English language arts, math and social studies.

Participants will be trained in and receive the Explore Your Environment: K-8 Activity Guide. Educators will participate in several indoor and outdoor activities from the guide, learn about the PLT program, get access to local and online resources, and develop a lesson plan to use with their students.

Learn more at www.plt.org/k8guide.
