Project Learning Tree[®]

WORKSHOP

FOR EARLY CHILDHOOD EDUCATORS

Developed with preschool educators and early childhood specialists, PLT's *Environmental Experiences for Early Childhood* and Project WILD's *Growing Up WILD* programs are specifically designed for educators who work with children ages three to six. Together, these programs build on children's sense of wonder about nature and provide an early foundation for developing positive impressions about nature and lifelong social and academic skills.

Workshop approved for 6 SC Department of Social Services recertification hours
