

PROFESSIONAL DEVELOPMENT EVENT FOR EDUCATORS

Project Learning Tree and Palmetto Project WILD provide hands-on, multidisciplinary activities to connect children to nature and increase young people's awareness and knowledge about their environment. Activities include detailed step-by-step instructions, academic correlations, time and material requirements, and corresponding student worksheets. Participants will be trained in and receive PLT's Explore Your Environment: K-8 Activity Guide and Project WILD's K-12 Activity Guide. Educators will participate in several indoor and outdoor activities from the guide, learn about each program, get access to local and online resources, and develop lesson plans to use with their students.

The Greenville Zoo is happy to partner with Project WILD, Project Learning Tree, and EEASC to offer a free environmental educator workshop and certificate program at Roper Mountain Science Center. Through this workshop, educators will be able to confidently convey messages about our natural world to all their students. Registration is limited, so sign up today!
