

South Carolina TREE FARM Program

Friends and Supporters

The South Carolina Tree Farm Program welcomes support from people and groups who are interested in promoting effective land management by private landowners in South Carolina. We are the South Carolina Tree Farm Program of the American Tree Farm Program [part of the American Forest Foundation].

Our mission is promoting responsible management of renewable forest resources by private landowners and increasing awareness of the benefits of sustainable forestry. Every Tree Farmer has a management plan for their property that addresses nine standards of sustainability and satisfies third party auditing for meeting International Standards of effective management. By sponsoring the program you will help us engage more landowners through outreach and education, strengthen our advocacy program, and help us provide a reasonably priced certification program for family forest owners.

Membership Categories

Supporter	\$60 to \$499	\$ _____
Bronze Supporter	\$500 to \$999	\$ _____
Silver Supporter	\$1,000 to \$2,999	\$ _____
